Prompt: "What is your dream career and why?"

My dream career I have not decided what I want to be in the future but from the past few days it has always been hitting me that what should I be in the future. After evaluating my options, I have decided to go into the commerce stream. I started finding my career options like investment banking and personally the best choice for me is investment banking as it is a pretty good thing and uh, the concert. I learned from YouTube that investment banking basically means when you import a lot of money into a company and you help them grow.
